Schlage and One Source Form Distribution Partnership

CARMEL, IN – November 18, 2010 – Ingersoll Rand Security Technologies, a leading global provider of security and safety solutions and manufacturer of Schlage contactless smart credentials and readers, and One Source Industries, an online provider of identification products, have formed a distribution partnership in which One Source customers have access to Schlage’s vast portfolio of products, including proximity cards.

Schlage’s card offering includes proximity cards that are compatible with certain HID proximity protocols. Schlage also offers smart card technologies such as MIFARE®, DESFire®, and MIFARE DESFire™ EV1 as well as dual technology cards which employ both proximity and smart card technologies. All of Schlage’s cards are offered in a variety of form factors including ISO cards with and without magnetic stripe, clamshell cards, key fobs, and adhesive PVC patch credentials.

“One Source offers an array of identification products and we look forward to our portfolio being a part of their extensive offerings,” relates John Menzel, director of business development at Ingersoll Rand Security Technologies. “Their expertise in our products and dedication to their customers makes them an ideal partner.”

“Schlage has an in-depth line of products that offer customers choices when selecting a credential,” emphasizes Robert King, vice president of One Source. “Their commitment to innovation, customer service and great products make them a great partner for One Source. We’re excited to move the partnership forward.”
